(2 local universities)

Why is TCI the Right Partner for You? Because…

… we ask the right questions and listen to you.

… find suitable solutions for you.

… or develop.

… are your contact persons up to delivery and beyond.

You can Rely on TCI

Thanks to

- technology
- manufacturing and quality
- support
- logistics and on-time delivery
- strategy
- lifeblood

And We Have Products, Too…

luna

Touch Panel for Smart Home

- flush installation with continuous glass surface
- high performance for your application
- your smart home control center in an attractive design

E10A

Industrial Touch Panel

- robust and high-performance
- panel mounted or on support arm
- complies to protection class IP54

solo and solo+

Room Controller

- 4 inch Touch in elegant design with a frameless real glass front
- latest browser technology
- brightness sensor to control the light intensity
- individual surface for an unmistakable design

E04A

Industrial Touch Panel

- web-based 4 inch touch panel in conventional analogue display instruments format
- for energy and supply technology
- IP54 front in 96x96 standard format

F-Serie

Industrial Touch Panel

- hardened aluminum front or stainless steel

  –> rugged for extreme requirements

- The ESG cover glass reliably protects against

  heavy loads or collisions

- real glass front with capacitive glass touch

  up to IP69k/IK08

F16T

Industrial Touch Panel

- outdoor or in the production-related environment
- rugged all-round closed touch panel for mounting arm (IP65)
- optionally available with an extended temperature range

  (-40 up to +70°C)

Thank you
for your kind attention.

We look forward to joint projects!
